SUMMARY REPORT
FT 950-E

February 1963

FOR RELEASE
April 26, 1963

EXPORT TRADE BY COUNTRY

The Bureau of the Census, Department of Commerce, announced today that the increase in United States exports of domestic and foreign merchandise, including Special Category commodities and unadjusted for seasonal variation, from $1,011.0 million in January to $2,104.8 million in February[1,2], reflected sizable increases in exports to all areas and was due largely to accelerated export activity aimed at reducing the backlog of shipments built up during the dock strike which began December 23, 1962 and continued through January 25, 1963. Changes in the dollar values of exports to all areas during the period were as follows: Western Europe, from $326.7 to $808.4 million; Latin American Republics, from$127.0 to $288.1 million; Canada, from $278.3 to $307.2 million; and "all other countries," from $279.0 to $701.2 million. These totals include data on exports of Special Category commodities which rose from $132.7 to $228.4 million.

With Special Category commodities excluded, exports of domestic and foreign merchandise rose from $878.4 million in January to $1,876.4 million in February. Exports to O.E.C.D. countries in Europe rose from $253.2 to $651.6 million; sterling area countries, from $127.9 to $346.1 million; and Latin American Republics, from $119.5 to $281.0 million. Increases were reported in exports to all continents.

Exports to Europe rose from $258.6 million in January to $692.1 million in February. This change was largely accounted for by increases in exports to the following individual countries of this continent: West Germany from $43.8 to $119.5 million; United Kingdom, from $47.6 to $106.0 million; Italy, from $31.7 to $83.2 million; Netherlands, from $30.0 to $73.6 million; France, from $32.9 to $67.1 million; Yugoslovia, from $3.2 to $24.3 million; Turkey, from $2.0 to $22.3 million; Spain, from $8.8 to $27.6 million; Sweden, from $7.4 to $26.1 million; and Belgium and Luxembourg, from $26.2 to $43.0 million. The rise in exports to Asia, from $184.8 to $427.8 million, reflected in large part, increases in exports to Japan, from $72.1 to $169.3 million; India, from $22.9 to $61.0 million; Pakistan, from $8.3 to $28.1 million; Republic of the Phillipines, from $11.0 to $27.9 million; Israel, from $4.0 to $16.2 million; and Hong Kong, from $5.5 to $14.9 million. Exports to South America rose from $43.8 to $170.4 million mainly due to higher levels of exports to Venezuela, from $15.7 to $42.4 million; Brazil, from $9.6 to $39.3 million; Argentina, from $3.0 to $18.3 million; Chile, from $2.7 to $16.6 million; Peru, from $5.4 to $19.7 million; and Colombia, from $4.2 to $18.3 million.

Exports to Africa rose from $13.5 million in January to $98.5 million in February reflecting increases in exports to most of the countries of this continent. Some of the more noticeable of these increases included the Republic of South Africa, from $4.3 to $29.8 million; United Arab Republic, from $2.0 to $20.2 million; Algeria, from $0.8 to $7.3 million; Republic of the Congo, from $1.7 to $7.0 million; Libya, from $0.4 to $5.6 million; and Morocco, from $1.2 to $5.8 million. Exports to North America increased from $360.0 to $438.8 million primarily due to a rise in exports to Canada, from $268.0 to $296.9 million; Mexico, from $51.2 to $63.8 million; Dominican Republic, from $2.1 to $9.8 million; Republic of Panama, from $4.2 to $11.3 million; Netherlands Antilles, from $2.3 to $7.4 million; Costa Rica, from $1.6 to $5.0 million; and Guatemala, from $2.4 to $5.5 million. Exports to Australia and Oceania climbed from $17.7 to $48.9 million owing chiefly to substantial increases in exports to Australia, from $15.5 to $39.7 million and New Zealand and Western Samoa, from $1.4 to 8.1 million.

[1]The Bureau does not have adequate information to measure the effect on the statistics of the dock strike which began midnight December 23, 1962 and continued through January 25, 1963.

[2]See the February 1963 issue of Report No. FT 900-E for seasonally-adjusted figures on total exports, excluding Military Assistance Program—Grant-Aid shipments. Seasonally-adjusted data are not available for total exports including Military Assistance Program—Grant-Aid shipments or by country of destination.

EXPLANATION OF STATISTICS

COVERAGE: Export statistics include government as well as nongovernment shipments to foreign countries. The export statistics, therefore, include Department of Defense Military Assistance Program—Grant-Aid shipments (for which separate figures are shown in the footnotes of this report), Mutual Security Program economic assistance shipments, and shipments of agricultural commodities under P.L. 480 (The Trade Development and Assistance Act of 1954, as amended) and related laws. (The separate information which is available on exports under P.L. 480 and related laws may be obtained from the Economic Research Service and the Foreign Agricultural Service of the Department of Agriculture.) Shipments to United States armed forces and diplomatic missions abroad for their own use are excluded from export statistics. United States trade with Puerto Rico and United States possessions is not included in this report, but the export trade of Puerto Rico with foreign countries is included as part of the United States export trade. Merchandise shipped in transit through the United States between foreign countries, not entered as imports, is not included in export statistics.

COUNTRY DEFINITION: Although the country of destination is defined as the country of ultimate destination or the country where the goods are to be consumed, or further processed or manufactured, the statistics do not always reflect this definition, as the shipper may not know the ultimate destination of the shipment. In such cases, the shipments are credited to the last country, as known to the exporter at the time of shipment from the United States, to which the goods are to be shipped in their present form. It follows, therefore, that the statistics will tend to be overcounted for shipments to transshipment or merchanting countries and undercounted for other countries. As explained in the footnotes to the table, exports of Special Category commodities are not included in any of the published country totals, for reasons of security.

VALUATION: The valuation definition used in the export statistics is the value at the seaport, border point, or airport of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Transportation and other costs beyond the United States port of exportation are excluded. None of the values have been adjusted for changes in price level.

RELIABILITY: The statistics presented in this report are based partly on sample data and therefore are subject to sampling variation that may cause them to differ somewhat from the results which would have been obtained from processing all export documents. For the figures shown in this report, the sampling variability can be ignored since the probable variability due to sampling is either less than $50,000 (the largest variation from rounding of figures) or less than a trivial percentage of the individual totals shown.

In addition to the effects of sampling variation and the difficulties described above under COUNTRY DEFINITION, the data in this report are subject to errors from such sources as the carry-over of data from month to month, errors in reporting or processing, the estimation of shipments valued under $100, and the omission of parcel post shipments valued under $50. Although the effect of such errors on the rounded totals in this report is probably small, the possibility of inaccuracy should be taken into account, particularly in using figures of relatively small magnitude.

Further information regarding coverage, valuation, compilation procedures and precision of export data is contained in the foreword of Reports No. FT 410 and FT 420. For complete statement, see foreword in Foreign Commerce and Navigation of the United States.

[a] Latin American Republics. [b] Sterling area countries. [c] Western Europe. [d] O.E.C.D. (Organization for European Economic Co-operation and Development) countries in Europe. *Indicates less than $50,000. [1] For definitions of countries as used in this report, refer to current edition of Schedule C, Classification of Country Designations Used in Compiling the United States Foreign Trade Statistics. [2] Country detail is not reported in the export statistics for Special Category commodities for security reasons. For certain areas, export totals include Special Categories, as shown at the beginning of the table. Export figures for other areas and countries represent total exports less exports of Special Category commodities. See the January 1961 issue of Report No. FT 410 for a list of Special Category commodities. [3] Includes $84.2 million of Department of Defense Military Assistance Program—Grant-Aid shipments ($32.4 million to Western Europe). [4] Includes $50.6 million of Department of Defense Military Assistance Program—Grant-Aid shipments ($8.8 million to Western Europe). [5] Includes $62.2 million of Department of Defense Military Assistance Program—Grant-Aid shipments ($28.6 million to Western Europe). [6] Includes $67.5 million of Department of Defense Military Assistance Program—Grant-Aid shipments ($27.5 million to Western Europe). [7] As explained in the April 1958 issue of Foreign Trade Statistics Notes, this is an arbitrary category established with April 1958 statistics to cover certain shipments to unidentified countries in Western Europe. [8] Effective with the statistics for July 1962, the country designation "Portuguese Asia, n.e.c." comprising Goa, Damao, Diu and Portuguese Timor became obsolete. Begining with the September 1962 issue of this report, data for Goa, Damao, and Diu are shown separately while data for Portuguese Timor are included along with data for other countries in the figures for "Southern and Southeastern Asia, n.e.c."
